

TM FUEL METER

A reliable electronic digital turbine flowmeter for the measurement of fuels, the TM is ideal for the use with Macnaught's range of hand operated and electric fuel pumps, or can be installed in an in-line meter application

FEATURES

- measures diesel, kerosene and petrol
- exceptional repeatability and high accuracy
- supplied with 2 x 1" NPT (M) x 3/4" NPT (F) reducing bushes, and 1 x 3/4" NPT nipple
- low pressure drop and high pressure rating allows for gravity and pump (in-line) applications
- 12 month warranty (conditions apply)

SPECIFICATIONS

- **accuracy:** +/- 5% of reading
- **flow range:** 10 litres (2.6 US gal) – 100 litres (26.4 US gal) per min.
- **max. pressure:** 2,200kPa/300psi/22 bar
- **max. temp:** 54°C (129°F)
- **inlet thread:** 1" NPT (F)
- **outlet thread:** 1" NPT (F)
- **dimensions:** 102mm (l) x 51mm (w) x 65mm (h)
- **weight:** 500 grams
